

Community-level Child Protection Task Force Offer of Support

OBJECTIVE

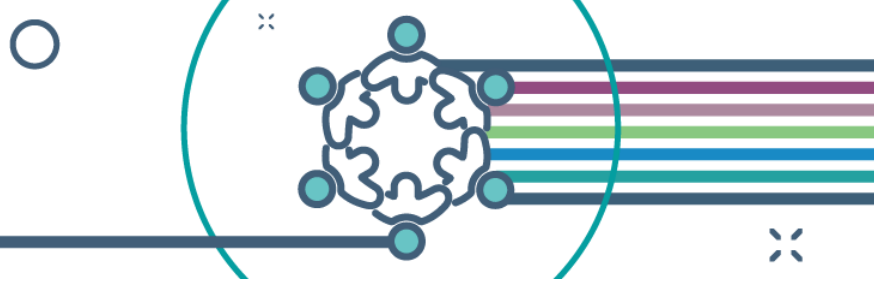

This document provides an overview of the Offer of Support provided by the Community-level Child Protection (CCP) Task Force to emergency responses. This document is intended for the relevant Child Protection Coordination body and technical working groups in-country (ex. CP AoR, CP Sub-working Group, CCP TF).

OUR MISSION

The goal of the CCP Task Force is to support member agencies with the tools, resources, and skills needed to implement high-quality, community-level child protection programmes in humanitarian and fragile settings in an efficient and coordinated way. The Task Force also promotes the documentation of innovative and promising practices that foster greater community ownership in protecting children during crises. Through this work, we aim to strengthen evidence-based approaches to community-level child protection programming.

OUR PRIORITIES

- Facilitate access to interagency guidance and tools to operationalise Standard 17 Community-level Approaches for Child Protection practitioners and other relevant stakeholders.
- Develop and disseminate CCP tools, training materials, and resources for agencies and actors to plan and implement effective CCP programmes in humanitarian contexts.
- Increase learning and evidence-based on community-level approaches in protecting children.
- Facilitate the coordination, participation, and contributions of all CCP TF members as well as efficient collaboration between other groups and entities internal and external to the Alliance.
- Review documents/tools and answer questions related to CCP when possible and relevant.
