WORKING TOGETHER

An Inter-Sectoral Framework for Advancing Children's Protection and Well-Being Through Humanitarian Standards

Ownership for sustainability

Tailored

Partnership

Focus on children

Our *vision* is humanitarian action where children's protection and well-being are institutionalised as core commitments by all actors and across all sectors.

Prioritised sectors demonstrate increased commitment and contribution to children's protection and well-being.

Actors internal to the child protection and protection sectors collectively advance children's protection and well-being.

Collectively champion

Transformation and durability

Common understanding

Adequate time is taken to understand each sector's perspectives, priorities and ways of working. From that, tailored language is agreed, and used consistently.

Competencies

Humanitarian personnel have core competencies for collaboration, prevention and response to improve children's protection and well-being.

Coordination & collaboration

Established partnerships support coordination and collaboration.

Standards

Humanitarian actors, informed by CPMS, integrate children's protection and well-being into their standards.

Evidence & learning

Documentation and exchange of good practice promote work across sectors for children's protection and well-being.

Tools

Sectors have collectively tailored operational tools and resources to address children's protection and well-being in their work.

Joint advocacy

Joint positioning and advocacy with humanitarian actors and identified allies advance working across sectors for children's protection and well-being.
